

Iron County Register

Entered in the Postoffice at Ironton, Mo., as second class matter.

E. D. AKE, : : : : : EDITOR.

VOLUME XXII. NUMBER 41.

IRONTON, MO.,

THURSDAY, APRIL 18, 1889.

S. L. I. M. & S. R. Y.

SCHEDULE OF PASSENGER TRAINS.

NORTH BOUND TRAINS.

St. Louis Mail, No. 754.....12:30 P. M.

St. Louis Accommodation, No. 750.....5:53 A. M.

SOUTH BOUND TRAINS.

Memphis Express, No. 763.....12:08 A. M.

El Paso Express, No. 751.....12:53 P. M.

St. Louis Accommodation, No. 750.....8:10 P. M.

F. P. ADAMS, Agent.

LOCAL BREVITIES.

Easter Beef—first class—at Nagel's Meat Market.

Protective Tariff is here, but "22 a day and roast beef" non est.

Next Sunday is Easter. After that, h's for fair spring and settled weather?

Some extensive refitting and painting is being done at the Arcadia College.

See Lopez's new spring advertisement. We commend it to your careful attention.

One of the "pusher" crews at Arcadia was discharged yesterday. Cause: lack of railroad business.

Bonanza's new advertisement this week is headed with a startling declaration which all will do well to ponder.

The tender fruit-blossoms hung in the balance last Sunday night, but a strong wind and a cloudy sky saved them.

For indulging in a little fast driving, on Sunday last, a couple of young men paid fines before his Honor next day.

The closing exercises of the Ironton Public School occur next Friday afternoon. All patrons are requested to attend.

What more grateful than the perfume from the bloom of the thousands of peach and apple trees these spring mornings!

The railroad company is still engaged in curtailing expenses and it is said, will soon close a number of the night offices along the line.

The Board of Appeals will convene next Monday April 23d to hear any and all appeals that may be taken from present assessment.

We verily believe a golden era is dawning upon this section, and the long buried mineral riches of Iron county are about to be uncovered.

There is work for the diamond drill in this section. With gold, silver and lead waiting development, there ought to be no difficulty in introducing it.

This is the season when it is a struggle between duty and inclination for the school-boy: shall he pursue his reluctant way to school or play "hooky" and go fishing?

House-cleaning, with all its attendant unctions, is here again. No, Ezekiel, we shall perpetrate no joke in this connection: our humor-attachment, like the stovepipe, is out of joint.

The Democratic postmaster at Fredericktown, Mr. A. A. McGuire, has been removed and a Republican now has charge of that office. The new appointee is a brother of Mr. Jno. Albert, of this place.

The REGISTER lot has a new fence, made out of lumber from the famous "Hen Farm" mill, owned and operated by James Burd, Esq. It is erected by the celebrated "wood artist," Mr. L. Claybaugh.

Butcher Johnson has recently purchased a lot of fine beef cattle from Dr. May, of Annapolis, and desires to inform the public that the beef he has on sale now-a-days is the most choice that ever graced an Ironton Meat Market.

The pushers may hereafter be denominated as "pullers." Recent instructions insist, that in future, save in exceptional instances, coupling on shall be in front instead of the rear of the train, to be helped, as has heretofore been the custom.

The Order of Railway Conductors give a Grand Ball and Supper at the Opera House in De Soto next Monday evening, April 22. A rare good time is assured and no holder of an invitation should miss so delightful an affair as this promises to be.

Fred Whitener, sometimes known as "Fred Douglas"—a colored youth about fifteen years old—is in jail serving out a well-merited ten-day sentence imposed on him last Monday by Judge Dinger. The offense was "prevarication," and the prosecuting witness was Peter Kiddie.

We learn that Mr. W. W. Nall, U. S. Marshal Emerson's Chief Deputy, will not go to Jefferson City as has been frequently reported on our streets during the past few weeks, but will stay in the Custom House with the Judge so long as that gentleman remains in office. How long that will be of course is not certain.

The St. Louis Republic will issue a Souvenir edition on the 20th of April—the centennial of President Washington's inauguration. It will be of mammoth dimensions, and profusely illustrated, and will be sold at the usual price—5 cents per copy. Orders may be left at this office at any time prior to the 28th inst.

Reese Bros. are at work developing their lead mine near Annapolis, and the indications are very gratifying. At a depth of seven feet, the vein is increasing in size and richness rapidly. Several specimens, taken recently last Saturday, have been sent out of the mine last Saturday, have been given us, and our friends are welcome to call and see them. Unless all signs fail, the mine promises to pay well.

To the best of our knowledge and belief the rumor current in the Valley a couple of weeks since to the effect that Judge Langston had "passed to the other shore," was unfounded in fact. We believe we are justified in our unbelief because he was in Ironton Saturday last, alive and in good health! May he live a thousand years, is the wish of his friends, and their name is legion.

The St. Louis Ore & Steel Co. have a force of men at work prospecting in the manganese iron ore mine on Cuthbertson Mountain near the residence of W. W. Heywood, about four miles south of Ironton. This, it will be remembered, is the same property that was worked, to a small extent, some three or four years ago by the Arcadia Mining Company, under the supervision of S. E. Whitehead.

A party of young ladies from the Valley, accompanied by one of our young gallants, took a horseback ride on Iron Mountain last Saturday afternoon, and we understand, enjoyed the outing greatly. There is no finer exercise, nor more exhilarating, than a dash over the hills and through the valleys. It

is glorious and invigorating, and renders home life in an ennobled easy chair, for days after, doubly grateful! Like all other things in life, a hard-trotting horse has its uses.

We this week publish the docket for the April term of the Circuit Court which convenes next Monday. If, as is anticipated, one or two of the more important cases therein are continued, the session will not likely last over four or five days. However should the whole docket be adjudicated—that is all cases finally disposed of—we would probably have, at least, two weeks of Court, but this is anything but likely to occur.

Mr. Louis Miller's new property on Main Street is one of the most picturesque in Arcadia, and gives additional evidence of the taste and aestheticism of its owner. The building has lately been artistically painted and the recent improvements around the miniature lake will go far toward making it one of the most charming resorts in our lovely valley when Mr. M. has set out those shade trees which are all that are now wanting to make his little park a veritable paradise!

For variegated sidewalks Ironton beats the world. Brick, stone, plank and gravel form the burden of their construction, according to the fancy of the builders—and every lot on the street has a particular fancy peculiar to himself, in contrast to that of his neighbor. This is an inherent privilege peculiar to the free American citizen, but its unfettered exercise plays the havoc with the *tout ensemble* of the city highways, so to speak. But Potosi knocks us out on break-necks and offsets. The sidewalks in that town are made up principally of staircases and "coons."

"Uncle Pete" is sorrowing because Mr. Ringo voted against the Deering High License Bill. Another instance of how great men will differ: we think Mr. R. acted with excellent judgment, for, though the bill is a good one in some particulars, some of its provisions are prohibitory, and should not become law. One section declares that there shall be no licenses granted outside of incorporated towns, under any circumstances whatever. This is both prohibitory and discrimination. We take it, people living outside of municipal corporations are fully as capable of self-government as those within. Another section makes county courts the guardians of the cities and towns—a mixing of powers not conducive to good government. There are other fatal defects, but these are one sufficient justification for our Representative's "No."

Last Saturday we were shown several specimens of ore from the reputed gold mine near Des Arc, so on to be thoroughly tested and uncovered. They have withstood all the tests with acids, etc., that can be given them here. The assays are yet to be made, so far as we know. Old miners who have operated in California and Colorado, say that these specimens have the true appearance of gold-bearing quartz, and that the lead promises to yield richly. Judge Dinger, who owns a body of land, near and adjoining the prospect now being mined, says the vein has been traced on to his property, and he is determined to have an immediate assessment of its value. To this end, he will have the ore assayed at once. We will give the result to the public without delay. That it will be gratifying, we have no doubt.

The report of a difficulty that was luckily prevented from being a tragedy is told us by a visitor from the southern part of the county. One day last week a negro ruffian, under the influence of liquor, after loitering around the depot at Des Arc, commenced to make himself very disagreeable by indulging in vulgar and improper displays of his person. The station agent, Mr. Simmon, very quietly went to the offender and told him that he would have to behave himself or leave the premises. This enraged the negro, who, grabbing a coupling pin, ran Mr. S. into the stationhouse and was on the point of delivering him a powerful blow when Mr. S.'s wife opportunely came to his assistance and the two together kept off the black brute until outsiders, who were near by, could rescue him. When one of them gave Mr. Darkey a ray that cooled him off immediately. In fact we are told that for a few minutes it appeared as if the would-be desperado had reached the end of his career but, after awhile he opened his eyes, staggered to his feet moved on his way, and, at latest account, "hasn't done anything since!"

The moral of this little experience is that when a bully desires to get on a tear in the South End he first wants to assure himself that "Uncle Dick" is out of the neighborhood! A number of gentlemen in Iron and St. Louis counties have formed a company and purchased a diamond drill, with which they purpose doing some extensive prospecting for lead and other minerals at various points in the county. The drill will be here, ready for operations, in about two weeks when work will be at once inaugurated, probably first on some of the especially promising outlooks in Bellevue and vicinity and then afterwards several points here in the Valley will come in for consideration. Among the more prominent gentlemen interested in the enterprise are Messrs. W. T. Gay and J. M. Logan, of this county, and Messrs. Tetley, Weber, Casey and Thomsen, of St. Francis. These individuals are all known to our readers as men of energy and capital, most of whom have heretofore had considerable experience and no little success in similar ventures, and together with the almost certain fact that "hidden treasures" exist in inexhaustible quantities beneath our surface, warrants us in indulging in the hope that the present undertaking will make millions for its projectors and start the boom which shall make this section what nature intended it should be, viz: the greatest mining region of the world. This may sound the least bit extravagant at first, but on a little thought and study of our geology, it will be viewed more in the light of a logical conclusion. Numerous localities in the Far West with half the national resources that we enjoy them with life and prosperity because they have the money and vim to develop their properties. Then why should we remain inactive when one-tenth of the money here expended would bring ten-fold the profits that generally accrue to the Western investor? No reason at all and the chances are now very promising that we shall not always remain in our present somewhat lethargic state, but on the contrary, as aptly hinted elsewhere, we believe that the dawn of better days is fast approaching, and when the day breaks, gentlemen, with your minor booms, stand under! We'll astonish the nations!

The Owner of the Gold Mine.

Ed. Register—It has been a long time since I have had anything to say in the REGISTER, but I want to correct one item in "ZINNA's" letter of last issue, in which she stated that the gold mine was on the lands of the Clarkson estate. It should have been R. M. Ombundro's land, adjoining the Clarkson tract.

MIKE DUGAN.

Tunnel Driftings.

Nick Jay left on No. 1 Monday, with his ticket good for El Paso.

On Thursday evening the blacksmith shop at No. 2 was destroyed by fire. The fire is supposed to have

been caused by a spark getting into a pile of charcoal. The loss is trifling, not exceeding \$50.00.

There was no work on the hill on Saturday; away ahead of the shipping orders was the cause.

Capt. Searle made a trip to St. Louis on Saturday, coming back on the accommodation of the same evening.

Late arrivals at Pilot Knob from Iron Mountain, Michigan: Chas. Schleuter, Chas. Martin and Robt. Tange, Jr. "There is no place like home," is their song.

One day last week two noted sportsmen from Pilot Knob came to the conclusion that roast duck was a dainty dish, and accordingly shouldered their guns. Dr. and V. are not great walkers, so the colored boy received orders to see that the buggy was in good repair, not only strong enough to carry the sportsmen but also a reasonable number of ducks. Everything being found in good order the trip to the dam was made in good time. After the horse and buggy was barricaded in a safe place, shooting commenced in great style. Bang! Bang! Bang! rang the reports of the breech-loaders over the rippling waters, and to the astonishment of the sportsmen the ducks continued to swim around as unconcerned as if it were boy's shooting with pop guns. To make this item short I will just state, that the fusillade was kept up until about fifty shots were fired, with a total amount killed—one innocent little diver.

ARCADIA ITEMS.

Ed. Register—Again your old Uncle has come to life, after a Rip Van Winkle sleep, and so has the "suburbs" recovered from its death-rattle of the past winter. Judge Clarkson is making some extensive improvements on his residence at Arcadia, which will still further enhance the beauty of our lovely town. Good for you, Judge! We need some friend to boom our little city, and I hope your gold mine at Des Arc will pan out millions, as Col. Sellers would put it.

But this isn't the only improvement going on. Mr. Quinn, of Poplar Bluff, is building a \$3000 residence here, which, I hope, will be another ornament for future Arcadians to view with pride. Mr. Leonard, of Poplar Bluff, is doing the work, as Boss W. B. Exum is assistant.

Hiram Baird is changing the looks of his home by the addition of two coats of paint, which is an improvement on the ghostly white and green that erst did cover it.

James Hatten, on College street, is having a new front fence built.

Father Werner is having the old Reed house removed, preparatory to building a new cottage this summer, and I know it will be a credit to the town, as Father Werner is a gentleman of excellent taste.

Gen Turner is up to Arcadia for the summer.

Mr. Thomson is having some rustic summer houses built at his fishing lake. Also, at Cantleiver Bridge, across one arm of that lake.

Mr. James Hodge is circulating a petition for the Arcadia post-office, and there is no one signing it except some old Grand Army men who don't get more than one letter a year from this post-office, and perhaps not more than one in two years elsewhere. If Mr. H. should get the place it will not be by the majority of the good Republicans at Arcadia, for I don't think there is one here who has signed the petition. All the parties of the office want it to stay where it is, Republicans and Democrats, and all of one mind on this question, if not on the tariff. Perhaps Mr. H. will keep the office if he gets it—in the old trap of a well, what shall I call it? Never mind; you all know what I mean.

Mr. Ellis, of Potosi, is again here among us. He is a first-class plasterer, and I hope he will come here to stay.

St. Tual and Charley Allison have gone to St. Louis to work at their trade—painting—for the summer.

Mr. W. C. Perkins is photographing nearly every house in town. We are an interesting people, and don't be surprised to hear of our starting an Art Gallery at an early day.

I was pained the other day to see in the Republic that Mr. Ringo voted "No" on the High License Bill. I had hoped better things of him. A hundred Normal Schools would have been better than one ill vote "No." I am really sorry for you, Mann. I didn't expect it of you. It was a good bill and would have remedied a great wrong.

Your "Uncle Pete" will leave these parts for a while, to spend the summer elsewhere as his health is getting bad, and the old maid is down on him because he is getting bald-headed. Yours, as ever, U. P.

Minutes of the Iron County F. A. Held at the Court House in the City of Ironton, April 9th and 10th.

The President, Mm. O'Neal, being absent the house was called to order by Vice-President, J. E. Low, and Wm. Ruddock was appointed Vice-President for the session the Chaplain was absent and opening exercises were performed by the Secretary.

The following were present: J. E. Low, Vice-President; J. G. Hartman, Secretary; W. T. O'Neal, Treasurer; G. W. Phillips, County Business Agent; W. R. Wyatt, Lecturer; and W. B. Kemper, Chairman of the Executive Committee.

Minutes of previous session read by Secretary and adopted. Committee on Credentials was appointed by the Chair, as follows: J. W. Lashley, W. B. Kemper and J. T. Brooks.

Committee on Credentials reported fourteen Alliances represented and four not represented. It was moved and carried that the report be received, with the delegates not present to be marked absent, and committee retained through the session.

A letter was read from Chairman of Trade Committee of Washington county, and the plan was adopted by the body with John Kemper, Azariah Martin and G. W. Phillips as Trade Committee. Mr. Phillips to act as chairman, and we also recommended each subordinate to appoint a like committee and report to Chairman of County Committee. It was moved and seconded that the County Alliances assess the members in the county five cents extra next quarter for burial expenses.

After some discussion on the question it was decided to postpone the matter until our next regular session and Sub-Alliances to take action on it and report at that time. Adjourned to meet at 7 o'clock P. M. 7 P. M.—House called to order by the Chair. Prayer by the Chaplain. Secretary then proceeded to read a lengthy letter of ten

pages from our honorable Representative, Mann Ringo. It was moved and carried that we pay County Lecturer for his services as far as has come in and that the others be notified to send it to County Secretary at once, and those that have not received the lecture to pay when the lecture is given.

J. W. Lashley and J. T. Brooks were appointed on Executive Committee with W. B. Kemper, who is chairman. Moved and carried that the Secretary notify the four next regular Sub-Alliances to report at our next regular meeting.

Moved and carried that the County Alliance retain the Lecturer until the end of the year, July, subject to call of subordinates, and them to pay for same. The last half hour was spent in lecturing by Lecturer.

Adjourned to meet the third Friday in July, 1889, at 2 o'clock P. M.

J. G. HARTMAN, Sec'y Iron Co. F. A.

Henry Barnhouse's Headquarters General Store, South of Court House, Ironton, Mo.

Is now filled with a Splendid Assortment of Choice Fresh Groceries and Provisions, both Staple and Fancy, Tobaccoes, Cigars, Cigarettes, Pipes, Cigar-Holders, Pipe Stems, Hatch-Safes, and Tropical Fruits, Candies, Nuts and Cheesing Gum, Staple Drugs and Patent Medicines, Queensware, Glassware, Hardware, Woodware, a complete line of Clocks, Watches and Jewelry, Musical Instruments, Violins, Guitars and Banjos, Strings and fixtures, Clothes, Hair, Shaving and Tooth Brushes, Horse and Mule Shoes and Nails, Steel Building Nails, Tacks and Claw Hammers, Butcher Knives, Table Knives and Spoons, Pocket Knives and Fine Razors a specialty. To Cash Buyers the Prices on the above described goods will be Cut to suit the times for the next thirty days.

FOR SALE—A 3-Spring Wagon, one Light Buggy, Phaeton Top, One Sulky. Also a No 1 New Milch Cow. E. C. TUAL, Arcadia, Mo.

Des Arc Lead and Gold Mines.

There has been quite a stir among the people of Des Arc in the last few weeks about the gold mine found near here on the land of Onondulou Clark and Parties, south of the East have taken a 25-year lease on the land and expect to go to work on it very soon. Some of the ore, I understand, has been assayed and it turned out immensely rich. I hope it turned out millions. They also have a guard over this land to keep any one from taking specimens.

Mr. E. W. Graves, our enterprising merchant, who recently bought the Clarkson, Christopher & Company farm, near here has completed a diamond drill and has commenced boring for lead, and from all present indications, he will strike lead by the time he gets 50 feet, for it is here without a doubt, for about three or four hundred yards north of this there is a shaft from which there was 35,000 pounds of lead taken out by a man by the name of Young. He came here in 1887 and commenced work with a small force and soon struck lead. He went down about 20 ft, then turned off and drilled south for short distance, and, on account of water, he had some trouble, but he would have worked on but I am told his lease expired and he was not able to renew it. This lead was taken to Mineral Point or Hopewell furnaces and smelted. The parties who worked in the mines and handled this lead are still living around here. It is very common occurrence to plow up large chunks of lead in adjoining fields near this mines. I have no doubt if some one would drill and has commenced this mine we would have another Doe Run mine in this county.

ABOUT CHICKENS.

I have often heard of chickens being shipped to market, but never thought of them being shipped by the car load. Last week Messrs. Hicks & Thumshil, of Doniphan, Mo., bought part of a car load here and they shipped the car load it will contain 4,800 chickens. It was quite amusing to see the boys pulling out the eggs as fast as they were laid in the coops, which was one nearly every minute. I expect by the time they get to New Orleans, the point to which they intend shipping, they will have as many eggs as chickens.

Des Arc, Mo., April 15th, 1889.

DIED—At De Soto, Mo., on Sunday, April 7th, 1889, ARTHUR C. PEIRCE, infant son of Edgar and Louisa Peirce, of convulsion of the brain, aged 11 months and 25 days.

Little Arthur was one of the twins whose birth we noted at the time of its occurrence, and it is with sincere sympathy we now are called upon to record his passing to the other shore. To the afflicted parents we tender such words of condolence as friends may give to friend. But the hurt is in the heart, and only time with healing balm can assuage its pain or close the wound. The scar lasts with life.

Our baby's gone! But, O, 'tis sweet to know The angels bore him to that land Where Jesus' radiant love doth ever glow! He holds him in His tender hand, A hostage sweet, secured from every ill, That we who weary earthly lives are still, May upward turn our weeping eyes To Arthur's home beyond the skies!

Mineral Near Des Arc.

Prof. R. C. Hampton and N. O. Carey who have been in this vicinity for some months past prospecting for mineral, made a dying trip this week to the vicinity of Des Arc on the Iron Mountain Southern railroad, where they located a very promising ledge of gold quartz, in Iron near Wayne county line. They brought back quite a fine display of specimens of quartz rock specimens of silver and copper ore and samples of red granite all of which they found on their prospecting tour. These gentlemen leased four sections of land around their claim and Mr. Carey departed for Chicago last Sunday, where he goes to report to the syndicate of capitalists in whose interests he has made the exploration. There is something big on tap and as the ledge mentioned above is said to be the same as that located in the edge of the county we may expect to get a portion of the boom, when it comes. It is reported that Chicago parties will also take hold of some of the lead prospects in this county.—Perryville Sun.

From Goodland.

Ed. Register—Since my last nothing of particular importance has occurred in this vicinity. Health is exceptionally good for this season of the year. Farmers out hear are principally all done plowing for corn; a few have planted.

We attended church at Goodland on the 27th inst.; quite an excellent sermon was delivered by Rev. Mr. Troutman. After church we took dinner with Rev. J. R. Adams. Among those with a distance who attended church, we note the following: F. M. Adams, Belgrade; Mr. and Mrs. Albert Johnson, East Fork; Mr. and Mrs. Samuel Crocker, Goodwater.

Rev. Riley Hawk, who has been residing at Graniteville for the past six months, has returned to his farm near Clarks.

Reports say that Jasper Latham, formerly one of Iron County's pedagogues, is in an office near Little Rock, Ark., studying telegraphy.

Our young friend, U. S. Adams, who is clerking in a grocery store in Fresno City, Cal., writes that he is well satisfied with the country, and that he is having excellent health etc. He is now getting \$50 per month.

It is said as a fact that Reynolds county's collector is short in his account to the amount of \$8600. His bondsmen will have not less than two-thirds of the above amount to pay. We very much regret to learn of the above; "but such is life."

There was somewhat of a wrangle in the Henderson Dist., at the annual meeting, over the election of a director. Messrs. Houston Latham and Henry Henderson are the candidates. The board now stands as follows: Director for three years, Houston Latham; two years, Jno. Sumpter; one year, Jno. McMahon.

Miss Josi Reed has returned home, after an absence of two months.

Mr. A. V. Hendrix, Black P. O., is now suffering from pneumonia.

Mr. Green and son, Iron Mountain, were out this week buying cattle. They succeeded in getting twenty-five or thirty head. The average price paid for three-year-old steers was about \$10.

In a late copy of the Journal of Agriculture we notice that J. H. Eaton, Poote, takes issue with a gentleman in Ill. on the Tariff. The last named gentleman claimed in his first paragraph that there was nothing abstruse about the question; but he failed to make a single point in favor of his side of the question.

James McMahon is working with Mr. Darmond, Bellevue, and will remain through the season. James is a model young man, industrious, and always attends to his own business. Success to you, James. April 6th, 1889.

Personal.

Judge Emerson was home Monday.

Miss Ruth Gay was in St. Louis a couple of days last week.

W. R. Edgar and family were in St. Louis last Wednesday.

Mrs. E. D. and Mrs. J. T. Ake spent a couple of days last week in St. Louis.

A. Roehry was in St. Louis last Thursday.

Mrs. S. W. Andrews, Arcadia, is in De Soto called there by the serious illness of her sister, Mrs. Chatham.

Mrs. Katie Delano was in St. Louis last week.

Rev. O. W. Rose is in town this week.

Capt. B. Zwart was in St. Louis a couple of days last week.

WANTED—A first-class girl to do general housework. Good wages given. Apply soon as possible, to Mrs. W. A. Paul, Arcadia.

INCREASE IN VALUATION

AND—

ADDITIONAL ASSESSMENTS

By the County Board of Equalization of Iron County, Missouri, for the Year 1889.

Assessed to John Crowley—40 acres: the northwest quarter of the northeast quarter of section 21, township 21, range 4 east. Valuation by Assessor, \$800; by Board, \$200.

Assessed to John W. Turner—25.00 acres: the west part of lots 1 and 2 of the northwest quarter of section 5, township 23, range 4 east. Valuation by Assessor, \$2,000; by Board, \$400.

Assessed to John S. Benson—320 acres: the east half of section 19, township 21, range 3 east. Valuation by Assessor, \$320; by Board, \$60.

Assessed to P. W. Schneider—25.65 acres: the east part of the southeast quarter of the northeast quarter of section 10, township 24, range 6 east. Valuation by Assessor, \$1,000; by Board, \$500.

Assessed to Louis Miller—1st 1 block A, town of Arcadia. Valuation by Assessor, \$200; by Board, \$600.

STATE OF MISSOURI, ss.

COUNTY OF IRON, ss.

I, Wm. A. Fletcher, Clerk of the County Court and ex-officio Secretary of the Board of Equalization of Iron County, Mo., hereby certify that the foregoing is a full, true and complete copy of the increase in valuation made by said Board during its session, commencing April 1st and ending April 30, 1889, and that the same Board will meet at the office of the Clerk of the County Court of Iron County, Missouri.

On the Fourth Monday in April, 1889, to hear and determine any or all appeals that may be taken from the foregoing valuations.

Witness my hand and seal of said [SEAL] Court, at office in Ironton, Mo., this 4th day of April, 1889.

Wm. A. FLETCHER, Clerk and ex-officio Secretary of Board.

Guardian's Notice of Final Settlement.

STATE OF MISSOURI, ss.

COUNTY OF IRON, ss.

Estate of Mary Rutschmann, a minor. Magdalena Rutschmann, Guardian and Curator. In the Probate Court of Iron County.

May Term, 1889.

Notarizing is hereby given that the undersigned guardian and curator of the person and estate of Mary Rutschmann, late a minor, has made a just and true exhibit of the account between herself and said ward, and filed the same with the Probate Court of Iron County, and that on the third day of the May Term, 1889, thereof, she intends to apply to said court for leave to make final settlement of her guardianship accounts, and for her discharge as such guardian.

MAGDALENA RUTSCHMANN, Guardian and Curator.

Administrator's Notice.

Notice is hereby given, that Letters of Administration on the Estate of Ruth Newman, late of Iron County, deceased, have been granted to the undersigned, Thomas Newman, by the Judge of Probate Court of the County of Iron, beginning date the 16th day of March, 1889.

All persons having claims against said estate are required to exhibit them to me for allowance within one year after the date of said letters, or they may be precluded from any benefit of such estate; and if such claims be not exhibited within two years from the time of the publication of this notice, they will be forever barred.

THOMAS NEWMAN, Administrator.

Final Settlement.
